

## Elaphite Islands - Islands in the sun

These untouched islands are a wonder of nature and also provide an experience of true island life, Dalmatian style. Situated to the north-west of Dubrovnik, this group of islands is made up of thirteen islands, the majority of which are uninhabited. With this full day excursion you will have the opportunity to visit three of them - Koločep, Šipan and Lopud. Take a dip in the crystal clear seas, stroll in the shade of Mediterranean vegetation, explore quaint hamlets or simply indulge your taste buds with local cuisines, the choice is yours. It's a perfect place to get away from the hustle and bustle of life as there are no cars, in fact, no vehicles at all. We move to the largest of the Elaphite islands, Šipan. Artifacts discovered on this island show that it was first inhabited in the time of the Roman Empire. As well as the many examples of ancient villas and churches the island also holds a wealth of natural beauty.
